The Dy Comr was further requested to submit a report about the exact income from the temple lands and a scale of expenditure in the temples

The Dy Comr has now submitted a detailed report. The following facts are gathered from the report —

out of the inam lands endowed to the temples an extent of 106 acres 18 guntas (assessed at Rs 332/-) only, is under cultivation and an extent of 109 acres 19 guntas as lying fallow. The income from the lands amounts to Rs 362-12-0 from all

A modest scale of expenditure providing for an annual expenditure of Rs 149/- is proposed The scale provides a pay of Rs 24/- per annum to the archak & of Rs 36/- to the Sweeper The archak of the temple is stated to be willing to conduct the services, if 2 S. numbers (under cultivation), are given to him for maintenance The particulars of these numbers are given below—

As no one is willing to take up the lands now lying fallow on short term leases ~~and~~ and as the present yield of lands under cultivation does not fetch even so much as the S assessment, it will be advisible to grant such of the lands as may find bidders on full assessment on Mulageni tenure, the right of alienating the lands by the Mulagendars being allowed only with the sanction of Govt. The abandoned garden lands call for special treatmen & it may be found necessary to grant them on full alve tenure The lands that may still remain without being taken up even with the above inducements, may be relinquished.

The Dy Comr recommends that in case of such relinquishment of land Govt may sanction the jari amount of such lands as a cash grant to the institution, in consideration of

The above note simply recapitulates intent examining the Dy Comr's proposal.

The scale of expenditure provide for the upkeeping of the building is very disproportionate to the income which is coming at least for some years. It is therefore impossible to fix any scale when apparently there is no income from which the expenditure can be met.

Draft a letter to the Dy Comr explaining the above facts and requesting definite proposals for the improvement of the income from the land and for the realignment of the inam lands.

Hon'ble Mr. Member

As the temples will even under the present arrangements have a net savings of about Rs 500, it does not appear necessary that they should be given the benefit of the Jodi Inam which amounts to ~~Rs~~ Rs 114-6-2. The grant of a cash Jodi in lieu of land Inams resigned should be exceptional as otherwise the Govt will stand to lose a good deal. In the present instance as the lands are not likely to be taken up for cultivation for some years to come, the Govt and the temple may be said to have shared the loss almost equally.

Sir,

Adverting to Government Proceedings No. 4423-5 dated 8-3-07 directing the assumption of the management of the temple of Sri Bhavani Shankar Devaru at Humchadakatte in the Thirthahally Taluk and calling for a scale of expenditure for the conduct of services in the temple, I have the honour to state that the question of the efficient management of the affairs of this temple and its lands is attended with peculiar difficulties, owing to (i) the situation of the temple and its lands in two different though adjoining taluks, and (ii) the paucity of local men who can undertake the cultivation of the large extent of waste lands belonging to the temple on favourable terms.

2. It will be seen from the accompanying state ments (App A and B.) that out of 28 Survey Nos of Karigersu village in the Khate of the devaru, only 12 Survey Nos, comprisin a total extent of 106 acres and 18 guntas assessed at Rs.332-0-0 are under cultivation, the remaining 16 Survey Nos comprising an extent of 109 acres and 19 guntas and assessed at Rs. 319-4-0 being fallow. The rent expected for the current year is Rs. 216-12-0 in cash and 18¼ maunds of Supari inclusive of the rent expected on the banjar gardens (portion of Survey No. 7 and Survey No. 13), which may be valued at Rs. 146/-. The total income for the current ye r may therefore be estimated at Rs. 362-12-0 as against a demand of Rs. 343-10-9 due to Government on account of jodi and cesses.

3. The scale of expenditure proposed by the Amildars of Thirthahally and Nagar Taluks is a modest one providing for an expenditure of Rs. 149/- per year. Even to adequately provide for this, it is necessary to take some steps whereby the institution may be able to save something out of its income for its repairs and other extraordinary charges and be freed from the necessity of having to contribute towards the Goverment dues on the lands now lying fallow.

The

4. The archek of the temple undertakes to conduct the services etc in the temple according to the above mentioned scale, if Survey NoS. 7 and 16 are granted to him for his maintenance for a period of atleast 50 years. He agrees to pay the Government dues on the lands himself during this period, which comes up to Rs. 62-5-4 per year. Survey No. 7 is a garden land measuring 4 acres and 32 guntas of which an extent of 2 acre is almost fallow and abandoned. The improvement of this land and 32 guntas which fetches at present a rent of only Rs. 27-10-0 although assessed at Rs. 39-0-0. The Amildar of Nagar Taluk considers that under the exisiting state of things it is desirabl to accept the archak's offer, as it relieves Government of the necessity of having to provide for the establishment and the services in the temple.

5. The record shows that no one is willing to take up the lands which are lying fallow on leases for short terms and that the only solution is either to grant such of them as can be rendered fit for cultivation on Mulgeni tenure and to relinquish the rest altogether. Considering the fact that the present yield of the lands under cultivation does not fetch even so much as the Survey Assessment thereof, it will perhaps be advisable to grant such of the lands as may find bidders on Mulageni tenure on full Survey Assessment, the right of alienating

the

x. requires a large outlay. Survey number 15 is a wet land measuring 13 acres and 2 guntas

the lands by the Mulagenidars being allowed only with the sanction of Government. The abondened garden lands would call for special treatment, and it may be found necessary to grant them on full alve tenure.

6. If even after showing the above inducements there still remain some lands which are not taken up the only course open will be to relinquish them. In such cases, I would recommend that on a consideration of the architectural interest the temple building poseeses and of the necessity of its preserva-tion, Government may be pleased to take a generous view of the case and sanction the jara amount of such lands as a cash grant to the institution.

7. I request the favour of very early orders on the important issues referred to above, to enable me to take further action in the matter.

8. The vernacular papers relating to the case accompany for reference and obliging return.

Sir,

Adverting to para 2 of your letter No. 2439/Muz 885-10-2 dated 13th June 1912 regarding the letting out of the Inam lands belonging to the Sri Bhavani Shankara Devaru temple at Kumchadalatte, in the Thirthahalli Talul, on long leases etc., before fixing the scale of expenditure of the temple, I have the honour to submit herewith a statement showing the particulars of lands endowed to the temple. These lands comprising 28 survey numbers are situated in Karigerasu village of the Nagar Talul. The Amildar of that Taluk was directed through the Sub-Division Officer, Sagar, to take necessary steps towards improving the lands by letting them out on long leases etc. His report No. 231 dated 13th November 1912, received through the Sagar Sub-Divisior Officer gives the particulars of lands let out on long lease on fixed and progressive rents and on " Alve tenure " and those that are to be relinquished for want of bidders.

Out of twenty eight survey numbers seven entire numbers

and portions of two others (survey numbers 18 and 23) have been let out on long leases for 20 years commencing from the year 1913-14. The lease amount for these lands is Rs 400-15-3 per year as against the present income (from eight of them) of Rs 114-10-0.

3. Two other survey numbers and the remaining portions of survey numbers 18 and 23 have been let out for a similar period on a progressive rental. The lease amount for these lands for 10 years commencing from 1913-14 is Rs 158-0-0 and from the 11th year and onwards is Rs 180-10-3, as against the present income of Rs 74-6-0.

4. Survey number 18 which was, hitherto, lying fallow, has now been granted on Ryotwari tenure. The rental to be paid for this land is to be as detailed below :-

year.		Income.
From 1913-14 to 1918-19	... ...	Rs 23-6-0 at four annas a rupee on the assessment and cess.
1919-20	... ...	Rs 19-10-2 at six annas.
1920-21	... ...	Rs 50-15-3 at eight annas.
1921-22	... ...	Rs 71- 0-11 at ten annas.
1922-23	... ...	Rs 95- 7-0 at twelve annas
1923-24	... ...	Rs 99 -7- at [illegible]
1924-25	... ...	Rs 110-11-0 full assessment plus cess.
From 1925-26 to 1931-32	... ...	Rs 110-11-0
From 1932-33 and onwards	... ...	Rs 107-0-0 as at present. (Rs [illegible]-11-0 cess. Rs 107-0-0 payable. (
		Total Rs [illegible]-11-0

5. It will be seen from the above that the rental to be paid for the land, after deducting the net assessment, [illegible] from the 20th year and onwards.

Two survey numbers viz, 7 and 16 have been
to Gundabhatta, Archak of the temple, for fifty years, on
of his performing the daily puja, visheshakattle etc, engagi
his own cost a servant for keeping temple premises clean and
up the hardware on these lands. The exact conditions to which the
birds his cold have been given in detail in the copy of the "Kutcha
executed by him, which forms part of the enclosed record. (Vide
statement B of the vernacular record) . It is desirable to
accept the reliable offer as it relieves Government for 50 years
to come of the necessity of having to provide for the establishmen
and the services in the temple and no more advantageous offers are
forthcoming. The other leases may also be approved as they are
decidedly advantageous to the temple.

8. It is seen from the vernacular records that no one is
willing to take up the remaining 14 survey numbers which have been
left uncultivated either on " Olve Tenure " or Kulageni tenure, and
that the only solution is to relinquish these lands altogether.

9. In these circumstances I have the honour to recommend
that the 14 survey numbers, the particulars of which are shown in
the accompanying statement, may be resumed to Government. In this
office No. 102 dated 9th December 1919 a recommendation has been
made that the Peri amount of these lands may be sanctioned as cash
grant to the institution. If this is not possible, the relinquish
may be accepted unconditional on the payment of the
jodi Peri, Rs 52-1-0 without any return is an unnecessary
relinquishment of the institution.

10. From the table at the foot of the statement it will be
seen that the income of the lands now retained will rise from
Rs 7-2-0 in 1919-14 to Rs 11-4-0 in 1949-39 and remain at that
figure for the rest of the period. This is in addition to the
entire cost of the services of the temple and the jodi payable on
survey numbers 7 and 16 amounting to Rs 52-1-4 and besides local
and other cesses due, which Gundabhatta has contracted to pay.

Against this income varying between Rs 587-6-9 and Rs 811-4-9, the only expenditure is the jodi amount and the cesses on the 12 remaining lands (i.e. excluding the unrelinquished lands and the 2 lands survey numbers 7 and 16 for which jodi is to be paid by Gundabhatta). The jodi amounts to Rs 98-0-1 and the local cess to Rs 13-10-6. Thus the proposed arrangements will result in a saving to the institution of from Rs 475-12-2 to nearly Rs 700-0-0 a year which will be available for repairs and improvements to the building, and will, I trust, commend themselves to Government as satisfactory.

11. The vernacular papers ending with the Sagar Sub-Division Officer's yadi No. 407 dated 28th November 1913 accompany for reference and kind return.

3. Government observe that ~~khxk~~ the income from the lands now leased out will bring in an income rising from ~~Rsxxx~~ Rs.587-6-9 ~~from~~ in 1913-14 to Rs.811-4-9 from the 20th year onwards and that besides, the entire cost of the services in the temples will be borne by the Archak himself in return for the lands in his possession. The only item of recurring expenditure will thus be the Government dues payable on the lands in question which will amount to Rs.111-10-7 excluding the lands proposed to be relinquished and the 2 survey numbers in the possession of the Archak who has undertaken to pay the dues on the latter. The proposed arrangements are calculated to result in a saving to the institutions of from Rs.475-12-2 rising to nearly Rs.700/- a year, which will ~~xx~~ be available for improvements of the temple buildings and similar purposes.

He also reports that the remaining 14 survey numbers could not be leased out on Alve or Mulgeni tenure, as no one was willing to take them up, and solicits sanction to the arrangements proposed above as well as to the relinquishment of the remaining uncultivable lands as the payment of the large jodi of Rs. 95-9-10 thereon without any return would be an unnecessary drain on the resources of the institutions.

3. Government observe that the income from the lands now leased out will bring in an income rising from Rs. 587-6-9 in 1913-14 to Rs. 811-4-9 from the 20th year onwards and that besides, the entire cost of the services in the temples will be borne by the archak himself in return for the lands in his possession.
